

Project no.: 240837

Project acronym: **RISCS**

Project title: Research into Impacts and Safety in CO₂ Storage

Contract type: Collaborative Project

Start date of project: 2010-01-01 Duration: 4 years

D 5.4 b7 Updated version of the website (month 42)

Revision: Draft

Organisation name of lead contractor for this deliverable: Istituto Nazionale di Oceanografia e di Goefisica Sperimentale

Proje	ect co-funded by the European Commission within the Seventh Framework Programme (200	7-2013)
	Dissemination Level	
PU	Public	Х
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
СО	Confidential, only for members of the consortium (including the Commission Services)	

Deliverable number:	D 5.4b7
Deliverable name:	Updated version of the website (month 36)
Work package:	WP 5 Research Integration and Dissemination
Lead contractor:	OGS

INTRODUCTION 1. STATISTICAL OVERVIEW

INTRODUCTION

This report provides a summary of the major updates applied to the RISCS website (www.riscs-co2.eu) during the period January-June 2013.

The website has been designed and implemented by Barbara Merson and Sergio Persoglia (OGS) by using the NetScience software tool developed by Promoscience. The website development and its updates are managed through RISCS Work Package 5: Research Integration and Dissemination.

During this period technical support and ordinary maintenance to the website were provided: for example, updating the staff lists by adding/deleting members, adding news and events or publications provided by the partners.

Because the website proved to be fully operative and to comply with the project necessities, no additional functionalities were required by the users.

1. STATISTICAL OVERVIEW

A statistical overview of the RISCS website has been produced. During the period January - July 2013, an average of 200 people per month visited the website. **Figure 1.1** shows the graphic representation of the visit trend during the period considered. **Figure 1.2** shows the corresponding geographical distribution of visitors for each country.
