INTRODUCTION

This report provides a summary of the major updates applied to the RISCS website (www.riscs-co2.eu) during the period July-December 2011.

The website has been designed and implemented by Barbara Merson and Sergio Persoglia (OGS) by using the NetScience software tool developed by Promoscience. The website development and its updates are managed through RISCS Work Package 5: Research Integration and Dissemination.

During this period technical support and ordinary maintenance to the website were provided: for example, updating the staff lists by adding/deleting members, adding news and events or publications provided by the partners.

1. STATISTICAL OVERVIEW

A statistical overview of the RISCS website has been produced. During the period January - December 2011, more than 1300 people visited the website. **Figure 1.1** shows the graphic representation of the visit trend during the period considered. **Figure 1.2** shows the corresponding geographical distribution of visitors over the world for each country.
