## INTRODUCTION

This report provides a summary of the major updates applied to the RISCS website ([www.riscs-co2.eu](http://www.riscs-co2.eu)) during the period June-December 2013.

The website has been designed and implemented by Barbara Merson and Sergio Persoglia (OGS) by using the NetScience software tool developed by Promoscience. The website development and its updates are managed through RISCS Work Package 5: Research Integration and Dissemination.

During this period technical support and ordinary maintenance to the website were provided: for example, updating the staff lists by adding/deleting members, adding news and events or publications provided by the partners.

No necessities appeared in terms of new functionalities. The contents were updated continuously and no malfunctioning was reported.

### 1. STATISTICAL OVERVIEW

A statistical overview of the RISCS website has been produced. During the period January-December 2013, more than 2000 people visited the website with two main peaks corresponding:

- the Stakeholder workshop held in London on 25<sup>th</sup> September 2013;
- the Final Conference held in Paris on 29<sup>th</sup> November 2013.

**Figure 1.1** shows the graphic representation of the visit trend during the period considered.

**Figure 1.2** shows the corresponding geographical distribution of visitors for each country.
